SUBJECT.

Petition from the ryots of Manchenahalli Kadaime Taluk praying for the removal of the inconvenience caused by the water of the Chamraja Kalla

FILE No. 21 of 1903-04.

LA.

Petition from the raiyats of Manchenahalli, Yedatore Taluk, praying for the removal of the inconvenience caused by the water of the Chamaraja Nala.

1 From the raiyats of Manchenahalli, No. 2513, dated 15th May 1904.
Complain against the delay in removing the inconvenience they are put to by the water from the Chamaraja Nala finding its way into their village.

2 To the President of the District Board, Mysore District, No. 4611, dated 27th May 1904.
Forwards the above for very early report.

3 From the President, District Board, Mysore District, No. 762, dated 30th June 1904.
States that he is making enquiries on the subject and that the report will be submitted after receipt of full information in the matter.

4 From the President, District Board, Mysore District, No. 611, dated 27th January 1905.
Proposes in the matter of removing the inconvenience of the raiyats in question two alternate remedies (1) either and excavation of a trench all round the village which will draw away all the water from the wet lands and carry it to the Nala to the east of the village, or (2) the conversion of certain wet lands into dry fields as recommended by the District Medical and Sanitary Officer.

5 To the same officer, No. 7899, dated 6th March 1905.
Requests him to state the net loss in revenue that may accrue to Government and the probable amount of compensation that the raiyats may claim if all the wet lands are converted into dry.

6 From D. Venkatakrishniah and others of Manchenahalli, dated 23rd December 1904.
Petition representing that no action has been taken to remove the dampness of the village already complained of and requesting immediate action as this is the best season to drain off the dampness.

7 From the President, District Board, Mysore, No. 876, dated 11th April 1905.
States with reference to Serial No. 5, that the net loss to Government will be Rs. 17,965, and the amount of compensation to raiyats will be Rs. 8,820, and that he will place the matter before the next meeting of the District Board for consideration, and proposes to form a new village abandoning the present one.

8 From D. Venkatakrishna Sastri and others of Manchenahalli, Yedatore Taluk, dated 8th April 1905.
Praying that early orders may be passed regarding the removal of dampness of their village.

—

9 To the President, District Board, Mysore, No. 10191, dated 15th May 1905.
Forwarding the petition received with the above and requesting him to send the further report promised in Serial No. 7.

9a To D. Venkatakrishna Sastri and others of Manchenahalli.
Stating that the petition, dated 8th April 1905 has been sent to the President, Mysore for report.

10 From the same officer, No. 1145, dated 15th June 1905.
Reporting that the District Board have resolved to allow the villages to try their own experiment, who have executed a mutchalika expressing their willingness to throw out of cultivation about 18 acres of land close to their village at their own cost.

11 To the President, District Board, Mysore, No. 326, dated 8th July 1905.
Requests the President to allow the raiyats of Manchenahalli to try their experiment to remove the dampness of their village for one year at their own cost and then report the result.

To,

The Secretary

Has there been any correspondence on the subject ? During my last tour, I visited this village and found that its inhabitants had a real grievance. The Assistant Commissioner (Mr. Badami Krishna Rao) who was with me, told me that some correspondence was pending in the District Office and I asked him to expedite. A check channel and the payment, by the people concerned of a moiety of its cost, were among the questions which I understood were under consideration. These people are in awful plight. Something has to be done as quickly as possible. Has any communication been received from the Deputy Commissioner please ? If not, kindly call for a very early report. Col: Smyth who inspected the place with me was decidedly of opinion that a remedy ~~was~~ was urgently called for. I was in hopes of getting from the local authorities a suitable recommendation but none seems to have yet been received. The villagers here ~~are~~ knee-deep in mud in their own houses when Col Smyth and I saw them at the village

General No. 611

No.

Enclosure No. 1 file V.P.P.

Recommending the Conversion of all wetlands into dry fields in Manchanabelly Hobli

officer of the District and to state as follows:-

The Amildar of the Pedabetalak reports that the excavation of a tunnel all round the Manchanahally village is necessary to remove the present dampness and render the village healthier. The tunnel will drawaway all the water from the wet lands and carry it to the Nala to the east of the village. The cost of the tunnel is Rs 6301- as per estimate filed in the records.

survey no	Extent Ac. G.
1	1 - 39
98	1 - 8
199	2 - 2
200	0 - 36
201	3 - 31
203	4 - 1
204	2 - 38
305	1 - 10
309	4 - 22
	22 - 26.

The Amildar also proposes a second remedy by converting about 20 acres of wet land into dry fields. The survey nos: with their extent are noted in the margin. The proposed

may in my opinion, bestow permanent benefit upon the Egyptian population

No 874

From

The Commissioner's Office

Nilgiris District

Local Boards Branch

Dated Ootacamund 4th April 1905

To

B. K. Venkatanarasimgar, Esq.

Secretary to Govt of Nilgiris—

General and Revenue Departments.

Sir,

With reference to your docket

No. 7899/Rul. 21-03 of the 6th March 1905, calling

for further information regarding

the sanitary improvements of Nan-

-chanahally in the updatable Valuation

I have the honor to submit that

the area of the wet lands proposed

by the District Medical and Sanitary

Officer to be converted into drylands

the village is 59¼ acres with an

assessment of Rs. 40-6½ - the amount

of Compensation payable to the

holders of the above lands at Rs 60/- per acre will be Rs 28 9 0/- and the dry assessment thereon at the prevailing rate of eleven annas per acre will be Rs 4 1 / That is will decrease the present revenue by Rs 363½/-. The capital amount required for an annual income of Rs 363½ will be Rs 9075 at 4 percent interest Thus the net loss to Government will be Rs. 17960/- of the present rental to be converted into dry

2. If on the other hand, the lands are allowed to fallow the Compensation amount at Rs 200/- per acre comes to Rs 18500/- and the capital required to realize

a sum of Rs. 40½ will be Rs. 10,100/-
thus causing a net loss of Rs. 21,100/-
per annum.

3. With regard to your question
as to whether the District Board
are willing to bear the Clearing, Flag
& Cultivation charges a limited increase
of income and an increasing amount
for expenditure, the Board are not in
a position to incur such a heavy
expenditure. Anyhow, I shall place
the matter before them at the next
meeting for consideration and the
result will duly be communicated.

4. I am now considering
whether in the interest of both
the inhabitants of the village and
the Government it would not be far
beneficial to abandon the present
village altogether and form a

new one on abandoned at the village survey map it is observed that there are two blocks on a dry ground away from paddy fields and other places likely to be injurious to health as per particulars given in the margin. Each of these measures more than the present area of the village which is about eight acres I am collecting information as to the convenience and wishes of the people to take to the new village as to the number and value of the existing houses, in the village as to the distance the ryots have to go to cultivate the paddy fields &c. Of these proposals commends in any way to Government I shall submit a detailed report on the subject

Have the honour
Your most obedient Servant

Agricultural proceedings
Revenue Board
Local Boards Branch
Dated Madras 15th June 1905

To

B. K. Venkatarama Aiyangar Esqr
Secretary to the Government of Madras
General and Revenue Department.

Sir,

With reference to your Docket No 10491-LB (21 of 04)-9 of the 15th May 05 forwarding for report a petition from Venkata Krishna Sastri and others of Manchanahally in the Hosdurga Taluk, praying for the early removal of the dampness of their village, I have the honor to state that the subject was discussed by the District Board on the 12th June 1905, in all its aspects. The inhabitants of the village are not for removing the village

to any of the two blocks referred to in my letter No. 676 of the 11th April 1905 as they are far away from the Cauvery River which is the only source of water supply during summer and as they are equally far from the greater portion of village fields. On the other hand, without any disturbance to their present position they intend to try an experiment at their own cost at the beginning, to see whether the dampness of their village would not be removed by throwing out of cultivation adjacent lands to the extent of 18 acres. The District Medical and Sanitary Officer, who was present at the meeting recommended the removal of the village from its

present position. If this be not possible be opined that the conversion of wet lands of 60 acres into dry was necessary. The District Board however decided to give a fair trail to the experiment proposed by the villagers. An extract from the proceedings is herewith submitted. I have not visited the village, but I consider there is no objection to allow the people to take up the consequence of their own experiment; if, however, after a trial it be found fruitless, further action may be taken.'

The file of numerous papers bearing on the subject together with the petition received with your docket under reply is herein enclosed for reference and obliging return.

I have the honor to be, Sir
Your Most Obedient Servant

H H Tyabji
President & Board

NB If not wanted

Proceedings of the District Board of the Nilgiris District passed at a meeting held on Monday the 12th June 1905

IX Read docket No. 1041-D3(2) of 04) of the 15th May 1905 from the Secretary to the Government of Madras in the Revenue General Depts calling for a full report regarding the removal of dumpers in the Manchanahally village of the Gudalur taluk. Correspondence ending with Dis. No 1207 of the 24th May 1905, from the Assistant Commr of the Nilgiris Division was also placed before the Board The District Medical and Sanitary Officer explained orally to the Board that a real and undoubted benefit is to be

afforded to the inhabitants of the village, the conversion of all the paddy fields measuring about 60 acres is absolutely necessary.

Resolved that as the villagers have evinced a unanimity expressing a ready willingness to throw out of cultivation about 18 acres of land close to the village at their own cost the result of experiment be watched for one year, at the end of which the question of stopping further waste cultivation be taken up for consideration if the present experiment proves successful.
